RE: Reconnaissance Level Characterization Report (RLCR)/Pre-Demolition Survey Report (PDSR) for Building 888 and the PDSR for 888A and T886A - Concurrence

Dear Mr. Legare:

The Colorado Department of Public Health and Environment, Hazardous Materials and Waste Management Division has reviewed the PDSR for the 886 Cluster-Phase 1 Closure Project, Revision 0 dated July 10, 2001, which was received on September 20, 2001. Based on the information contained in this PDSR, which is indicated to be the RLCR for Building 888, we are hereby concurring with the Type 1 designation for Building 888, as well as the PDSR for B888. In addition, we are also concurring with the PDSR for 888A and T886A.

Other than as indicated above for B888, 888A, and T886A, and as indicated in your cover letter, we have not reviewed this "Phase 1" PDSR for concurrence at this time. Once we have been provided the "Phase 2" PDSR for the B886 Cluster, we will review the complete PDSR (Phase 1 and 2) for the remainder of the B886 Cluster Facilities.

Concurrence with the PDSR for these facilities is predicated on their current status. Any continued or future use or potential for re-contamination prior to their disposition or demolition may require additional investigation to show that their environmental status has not changed.

If you have any questions regarding this correspondence please contact me at (303) 692-3367 or David Kruckek at (303) 692-3328.

Sincerely,

Steven H. Gunderson  
RFCA Project Coordinator
